CTF
PROPOSAL FOR INTERNSHIP
For ATTACKIQ

Contents

EXECUTIVE SUMMARY

CTF is a reliable cybersecurity firm skilled in the handling of a variety of cyber threats for corporates clients' businesses as well as government institutions.

Located in San Francisco California, Tech World is not only poised to provide cyber security internship to those who need to get their hands laid in the real back-end world but to also offer cybersecurity consulting services to tech firms as well as businesses. With the corporate world consistently under attack, only a reliable partner can provide lasting solutions to these problems. We plan to make our reach to every person out there in teaching and mentoring them for cybersecurity.

We pride ourselves on the quality of our workforce. Hence these are carefully selected from a pool of the most experienced and skilled cybersecurity experts in the industry. Working as a team of great minds, we cyber experts who are authorities in their respective sub-specialties adopt a holistic approach to combatting cyber threats.

CTF is founded by renowned cyber expert George Sanger who has worked as a consultant for many tech firms as well as government institutions for over two decades. His experience is vital to the success of this business as he has been able to put together a reliable and formidable cybersecurity startup that will provide internship to people and make them future ready.

The Business

We are prepared to go the extra mile in ensuring that we build a solid business structure. We are prepared to source for and recruit only the best employees that will help grow and sustain our cyber security business.

Our management team is comprised of individuals with the best skills and experience. All those in the management team know what it means to ensure that a business such as ours is able to attain all its intended goals and objectives. Our management team believe in our values and philosophies and are fully committed to ensuring that we are a force to reckon with.

Due to the fact that we are in a very competitive industry, where being proactive is one of the factors that allows a business exist for long, we are always on the know about the trends in the industry and even intend to create a few trends as well within our one year of operation.

The Opportunity

- Goal #1: Train all the interns in the ATTACKIQ platform.
- Goal #2: Make a social Media presence on LinkedIn.
- Goal #3: Make the website a word of mouth to every Cybersecurity enthusiast out there.

OUR PROPOSAL

ATTACKIQ As the leading independent vendor of breach and attack simulation solutions, we built the industry's first Security Optimization Platform for continuous security control validation and improving security program effectiveness and efficiency. We are trusted by leading organizations worldwide to identify security improvements and verify that cyberdefenses work as expected, aligned with the MITRE ATT&CK framework. ATTACKIQ less knowing in the cybersecurity due to poor

We have developed solutions to help businesses stay ahead of customer satisfaction trends and propose that ATTACKIQ implement a logistics solution focused on JIT order management and automation of many manual steps in your delivery process. Our solution easily integrates with a wide range of off-the-shelf CRM solutions and can enable ATTACKIQ to fully realize the benefits of improved productivity throughout the entire sales cycle. Most importantly, we provide the training and support for this new solution that ensures your staff can ramp up quickly and realize concrete improvements in sales closure, customer satisfaction, and sales metrics.

Rationale

- Research
- Market opportunities
- Alignment with mission
- Current resources/technology

Execution Strategy

Our execution strategy incorporates proven methodologies, extremely qualified personnel, and a highly responsive approach to managing deliverables. Following is a description of our project methods, including how the project will be developed, a proposed timeline of events, and reasons for why we suggest developing the project as described.

Technical/Project Approach

We will be starting off with publishing a post on LinkedIn stating that we will be having our partnership with ATTACKIQ for 2 Months. All users interested will register themselves here. Once done we will start of the internship with the users registered, will give them weekly task to perform to learn Cybersecurity.

We will also have weekly meet on Zoom where all will ask their doubt and will get it cleared. Also, there will be a weekly project lead allocation which will help the interns throughout the ween with the doubts they have

At the end of the internship, they will be getting certificate from CTF based on their performance.

Resources

The resources that need to be provided by ATTACKIQ and its purposes are mentioned below.

Resource	Purpose
ATTACKIQ login cred	Where interns will login and will have access for the weekly task.
Test series access	Where interns will test what they have learned throughout the week and the test will be taken there.

Project Deliverables

Following is a complete list of all project deliverables:

Deliverable	Description
Cybersecurity Knowledge	All interns will learn about Cybersecurity here and will test their knowledge in the real world later
Interns' footfall	As our previous score was 2000 Interns, we have a plan for getting almost 3000-4000 interns graduating this internship

EXPECTED RESULTS

We expect our proposed solution to ATTACKIQ's requirements to provide the following results:

Technical Benefits

- Result #1: Use of ATTACKIQ for learning cybersecurity
- Result #2: Testing of the simulator for a huge amount of users using it same time

PRICING

Since it's a free internship there will be no pricing involved as such.

CONCLUSION

We look forward to working with ATTACKIQ and supporting your efforts to improve your sales cycle with integrated CRM, JIT Inventory management, and training and support services. We are confident that we can meet the challenges ahead, and stand ready to partner with you in delivering an effective IT support solution.

If you have questions on this proposal, feel free to contact Mallory Vega at your convenience by email at m.vega@ctf.com or by phone at 9937626285. We will be in touch with you next week to arrange a follow-up conversation on the proposal.

Thank you for your consideration,
